

Robust, Efficient.

STRONGER TOGETHER

TIPPER TIE™

TC4357 Single Clipper

Functional description of the TC4357 Single Clipper

TC4357 is the perfect automatic clipper for use in the meat processing industry for stuffing raw and scalded sausage, sectioned and formed products, cooked ham and pressed meat into fiber or artificial casings. The short product path of TC4357 guarantees an optimum cutting surface. An effective triplet turret enables quick casing changes, especially with longer casing sections. The ergonomic design facilitates your work. Consecutively running operations, such as stuffing, gathering, clipping and swivelling, can be defined efficiently. The electronic memory enables structured product data reproduction and administration. A microprocessor controls the pneumatic drive.

Easy operation using a foil-protected keyboard

Portioning possible with length stop

Automatic loop feeder.

Triple turret for quick processing

Standard Features	TC4357 E210	TC4357 E410	TC4357 E510	TC4357 E400
Caliber	40–100 mm	50–160 mm	50–160 mm	50–160 mm
Clip Series	E200–E240	E410–E430	E510–E540	370–425
Air Pressure	6 bar			
Air Consumption	15 Liter			
Weight	165 kg (364 lbs)
